

# Cyber Cop

Understand the rules of  
the online world

There are rules to keep you safe online, just like the real world. Think twice before you share, only chat with family and friends you know, never meet up with people you don't know in the real world, report cyberbullying and if you're uncomfortable or worried, talk to someone you trust.

Can you think of any other rules?

**#staycybersafe and positive online!**
