

Some events can happen so fast
there isn't time for a warning.
So don't wait.
Be prepared and act quickly.

There are simple steps you can take to be prepared for the people you care about, yourself, and your community.

- » Prepared people have plans for emergencies and watch for warnings.
- » If someone relies on you, or you need someone's help in emergencies, check in regularly and have plans in place.
- » If a heightened warning is issued, know what to do to keep your family, friends and pets safe.
- » **[GetReady.qld.gov.au](https://www.getready.qld.gov.au)** has resources to prepare for natural disasters.

Your local radio station will broadcast warnings.

You can find warnings for different hazards online:

Flood, severe weather, cyclone	Your local government Disaster Dashboard, disaster.qld.gov.au/warnings or official social media channels
Bushfire	fire.qld.gov.au/current-incidents or official social media channels
Extreme heat	health.qld.gov.au/newsroom/alerts and on local social media channels

ADVICE

Advice means an incident has started and there is no immediate danger. Stay up to date in case the situation changes.

WATCH AND ACT

Watch and Act means there is a heightened level of threat. Conditions are changing and you need to start acting now to protect you and your loved ones.

EMERGENCY WARNING

Emergency Warning means you may be in danger and need to act immediately.
